

QDArchive Seeding — Part 2

Data Classification Report

Student	Yeasin Arafat Shampod (23080363)
Taxonomy	ISIC Rev. 5 — section + division
Repositories	2
Projects in database	886
Projects with an ISIC class	855
Primary files classified	12670
Generated	27 June 2026, 03:31

IHSN Survey Catalog (ihsn.org)
Histogram of primary ISIC classes (500 classified projects)

IHSN Survey Catalog (ihsn.org)

Rank-ordered primary ISIC classes (top 20)

Project types — QDA: 0 QD: 500 OTHER: 0 NOT_A: 0

Rank	ISIC Rev. 5 class	Count	Share	Cumulative
1	Public administration and defence; compulsory social security	406	81.2%	81.2%
2	Crop and animal production, hunting and related service activities	45	9.0%	90.2%
3	Human health activities	15	3.0%	93.2%
4	Social work activities without accommodation	11	2.2%	95.4%
5	Education	9	1.8%	97.2%
6	Employment activities	5	1.0%	98.2%
7	Activities of membership organizations	3	0.6%	98.8%
8	Financial service activities, except insurance and pension funding	3	0.6%	99.4%
9	Scientific research and development	2	0.4%	99.8%
10	Manufacture of other transport equipment	1	0.2%	100.0%

IHSN Survey Catalog (ihsn.org)

Discussion of findings

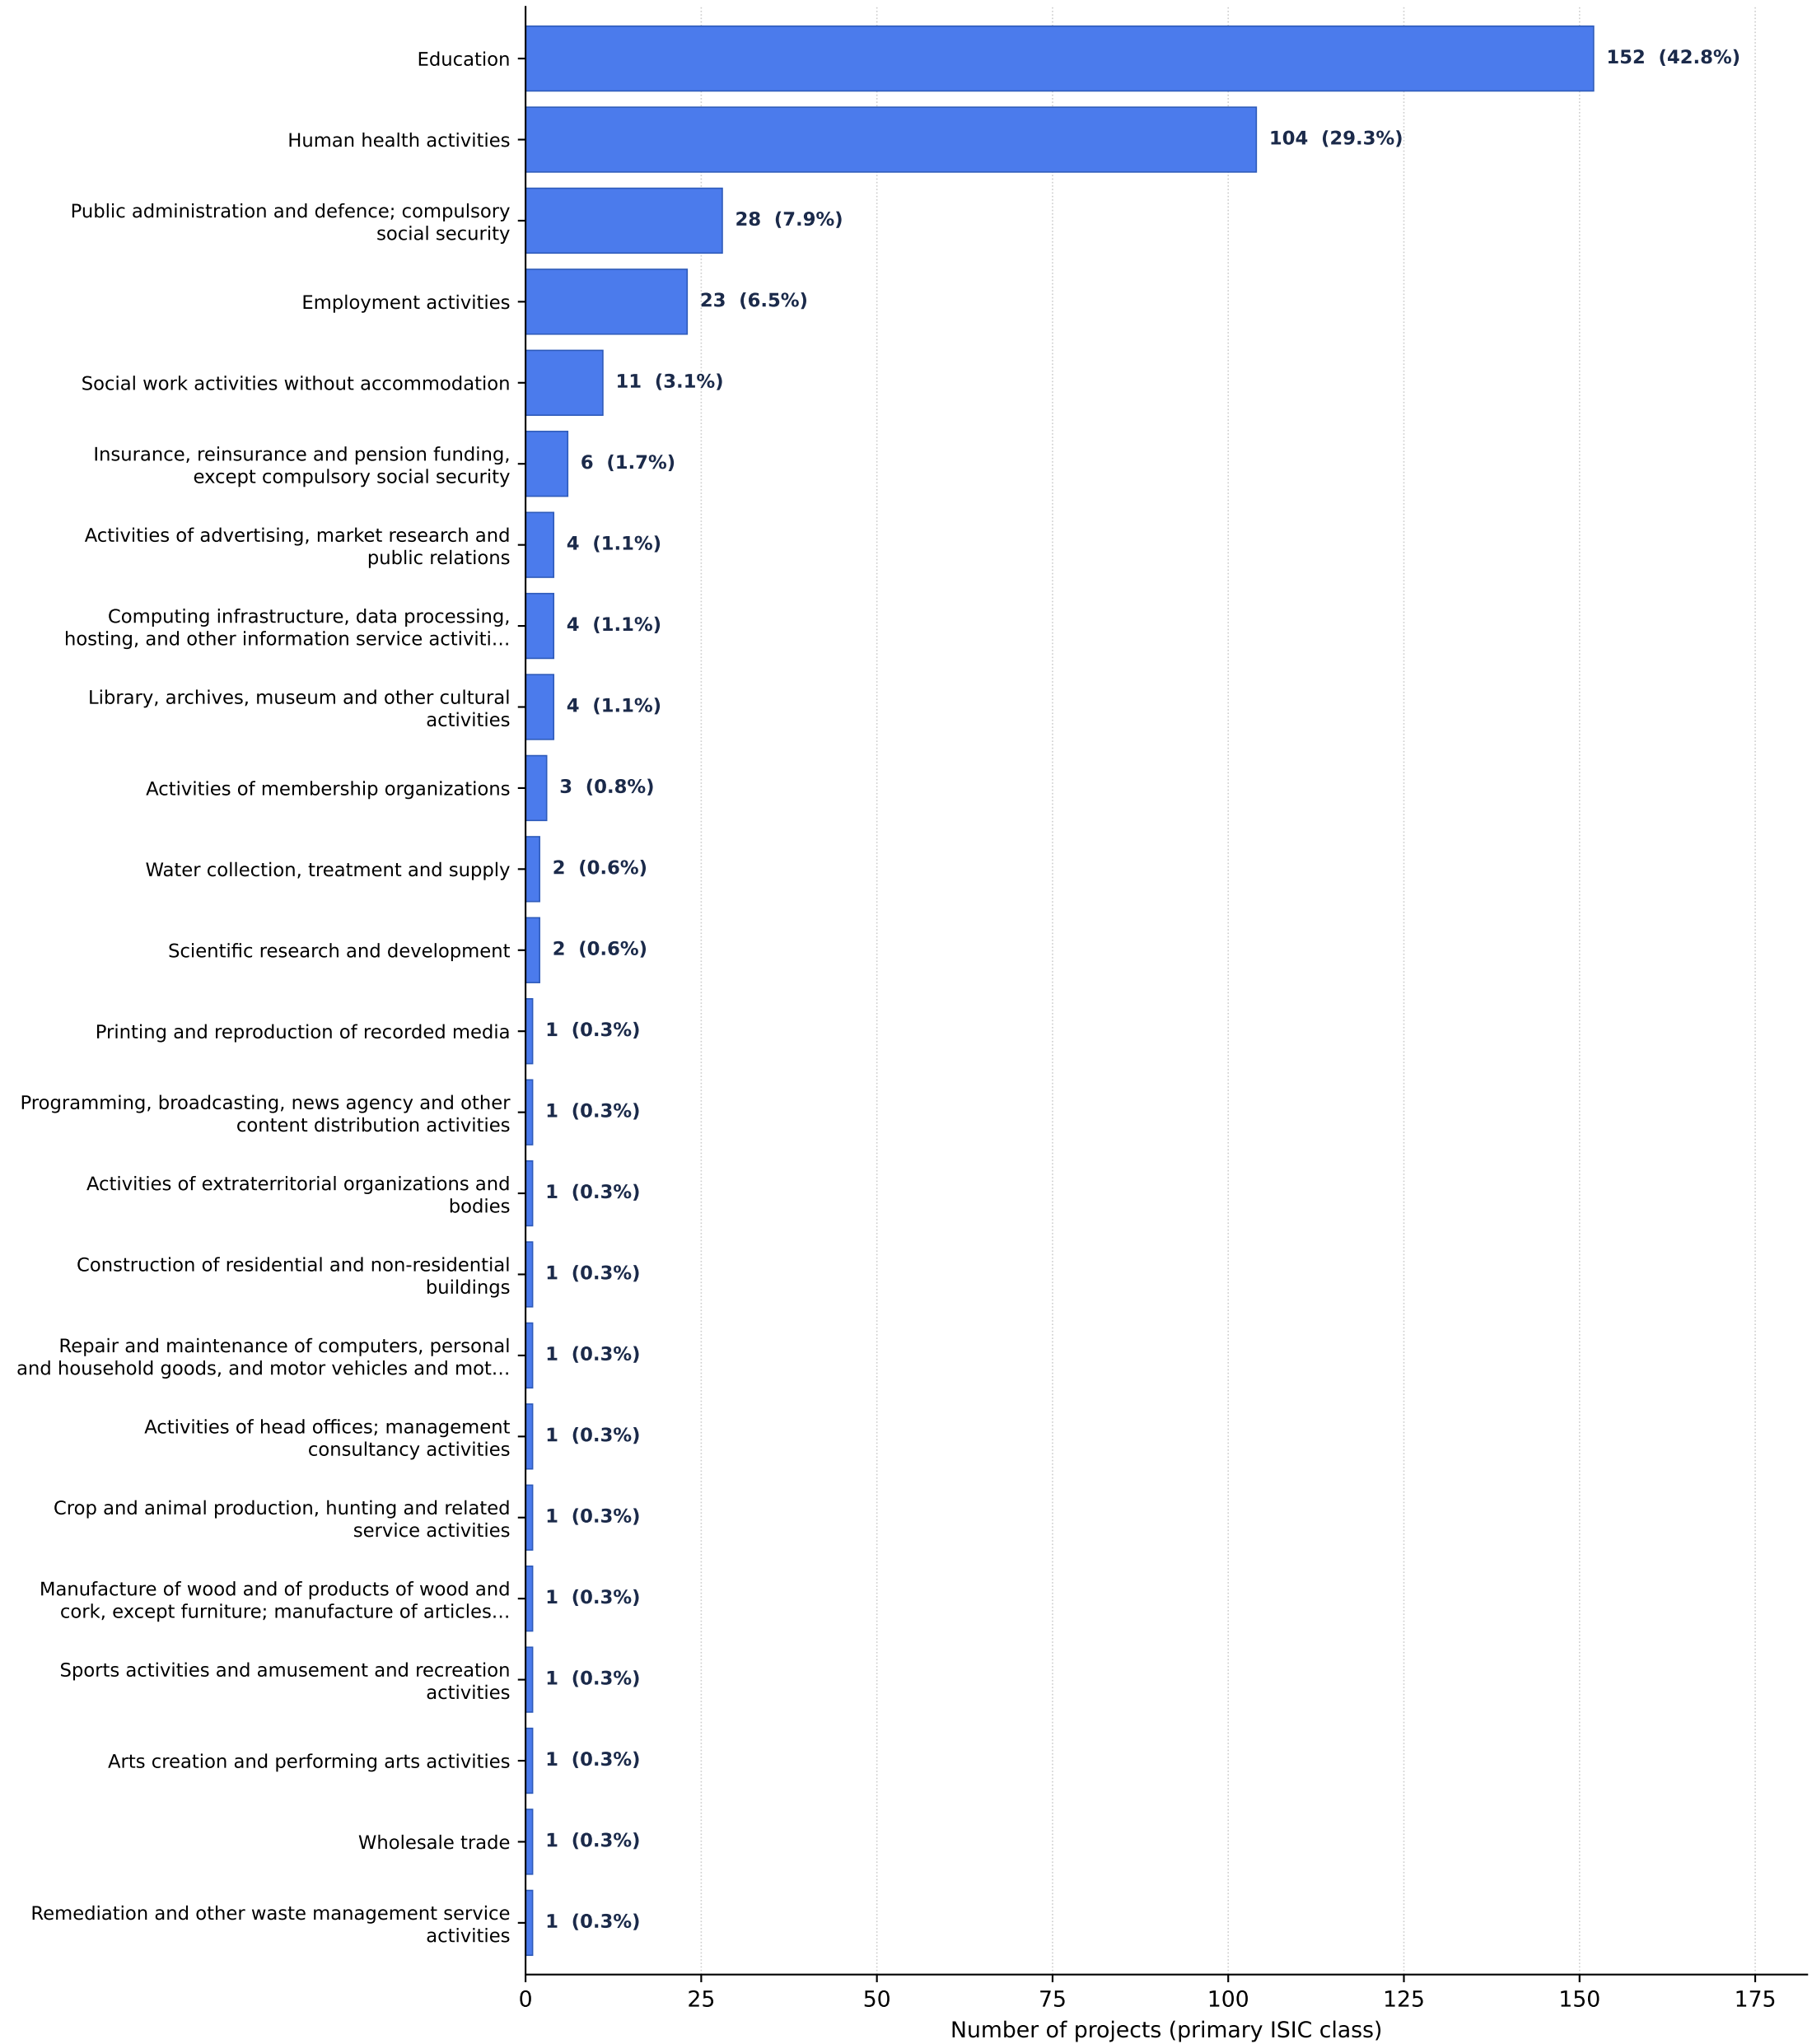

Across the 500 classifiable projects in the IHSN Survey Catalog repository, “Public administration and defence; compulsory social security” is clearly the leading subject area, covering 406 projects (81% of the collection).

It is followed, at a clear distance, by “Crop and animal production, hunting and related service activities” (45 projects, 9%) and “Human health activities” (15, 3%). Together these three leading classes account for 93% of the repository’s classified projects.

In total 10 distinct ISIC Rev. 5 divisions are represented, which makes this a highly concentrated collection. 2 of those divisions appear only once or twice and form a long tail of niche topics.

By project type the repository holds 500 QD and 0 QDA projects (only these two types are classified), alongside 0 other-data projects and 0 entries with no derivable project files. Each subject was assigned with a keyword-scoring classifier that maps a project’s title, description and keywords onto the official ISIC Rev. 5 divisions, giving the title the greatest weight because it most reliably names the subject of the data.

Total classified projects in this repository: 355.

Harvard Murray Research Archive (murray.harvard.edu)

Discussion of findings

Across the 355 classifiable projects in the Harvard Murray Research Archive repository, “Education” is clearly the leading subject area, covering 152 projects (43% of the collection).

It is followed, at a clear distance, by “Human health activities” (104 projects, 29%) and “Public administration and defence; compulsory social security” (28, 8%). Together these three leading classes account for 80% of the repository’s classified projects.

In total 24 distinct ISIC Rev. 5 divisions are represented, which makes this a moderately concentrated collection. 14 of those divisions appear only once or twice and form a long tail of niche topics.

By project type the repository holds 355 QD and 0 QDA projects (only these two types are classified), alongside 30 other-data projects and 1 entry with no derivable project files. Each subject was assigned with a keyword-scoring classifier that maps a project’s title, description and keywords onto the official ISIC Rev. 5 divisions, giving the title the greatest weight because it most reliably names the subject of the data.
